Will you please prepare for me in chart form your estimate of needs for the essential development of each desk in your branch. You should place against the slots the personnel you now have on hand and would expect or wish to keep in a permanent organization. Leave the other slots blank or mark with an asterisk those for which personnel are in sight though not employed at the present time.

This chart need only be in rough form, but I would like to have it just as soon as possible.

S.B.L.P.
